

Chem 101 Laboratory Exercise #2 Laboratory Notebook

Moles, Concentration, Acid-Base Reactions and Quantitative Analysis by Titration

Using Microsoft Word, students are to write their in-lab notes below while completing the Laboratory exercise. The Laboratory notebook must be uploaded to the CHEM 101 Lab Brightspace site as a readable .pdf by the end of the lab period. Please see page 7 of the 202309 CHEM 101 Lab manual as to all the information required in the in-lab notes. The documentation below must reflect the student's own work without assistance from others.

Name: Lab Section: Quad: Date:

In-lab Notes:
